“MY STANDARDS ARE IMPORTANT” – By Becky Craven

We moved¹ a lot when I was young because my dad was in the army². One of the hardest things about moving was leaving my friends behind³. As I was shy, I had trouble⁴ making new friends. When I was a teenager, some of my friends did things that were against my standards⁵. Sometimes I felt left⁶ out because I couldn't do everything my school friends did, but they respected my standards because they knew that my standards were very important to me. I was really happy to be respected by my friends.

Think about yourself: Are you sure you have good friends? Do they respect your standards? If not, are they really good friends?
